

Light Up Fairy Jar

Supplies*:

- Dried Spanish moss
- LED battery-operated fairy light strand
- Glass jar
- Decorative craft butterfly
- Transparent tape

Directions:

1. Wrap a strand of LED fairy lights around a mound of dried Spanish moss.
2. Place the wrapped moss into the glass jar. Tuck the battery pack into the moss, hiding it from view.
3. Turn on the lights.
4. Tape a craft butterfly to the jar.

*Remember, these are only suggestions. This project should be fun and creative, so use supplies you have on hand for substitutions.
